

COMPACT GOAL

The MCC compact with Indonesia includes three projects. The Green Prosperity Project aims to increase productivity in rural areas by expanding access to renewable energy and improving land use practices to support low carbon economic development, protection of natural capital, and increased household incomes. The Community-Based Nutrition Project is intended to reduce and prevent low birth weight, childhood stunting, child malnourishment, and increase household income through cost savings, productivity growth and higher lifetime earnings. Finally, the Procurement Modernization project aims to achieve significant government expenditure savings on procured goods and services, while assuring their quality satisfies the public need, and to achieve the delivery of public services as planned.
